THE REBEL'S TITLE OF LIBERTY:

We are true rebels. We don't rely on advances to create an impact in the world with our music. We understand what it means to operate and own our music businesses, and how they fit into our music vision. We don't wait for things to happen. Our motivation is the exact opposite, we make things happen, because we know that we have music that can change people's lives.

Because we are suppressed by gatekeepers and the unlimited budgets of big names in the music industry, we have to do things differently. We have to strategize, market and do business smarter. We don't have huge financial safety nets. We have to be resourceful. Every step and every tour we make is with our own and sourced money, so we have to be successful from the beginning.

If you ask the experts in the music industry, they'd tell you that it is impossible to make it in the music business without a manager, a booking agent, a record or publishing deal, or a producer. And we are showing that the opposite is happening every single day.

We are Trend Culprits, we are live performing musicians with purpose, we are music entrepreneurs on a mission. We are a blend of mind, body and spirit, and we are guided by our intuitions and our inspiration. We are the names behind the new trend of creating music with meaning, we act from a place of contribution, we create experiences, and everything we do adds value to the world.

We are Trend Culprits.
